PROFESSIONAL EXPERIENCE

IT Support Technician

Mount Sinai South Nassau — Oceanside, NY | 07/2024 – Present

- Configure BIOS/UEFI settings and deploy Windows and clinical endpoints through imaging, testing, and provisioning workflows.
- Provide L1/L2 onsite and remote support across Zoom, Teams, RDP, and Dameware environments.
- Resolve 30+ weekly ServiceNow tickets while maintaining 95% SLA compliance.

- Administer Active Directory accounts, permissions, security groups, and distribution lists.
- Support Microsoft 365 platforms, including Outlook, Teams, Exchange Online, and SharePoint.
- Troubleshoot Windows, macOS, printer, scanner, DHCP, DNS, and IP conflict issues.
- Deploy and support Workstations on Wheels (WOWs) for Epic EHR access and TDR activities.
- Support server maintenance, patching, endpoint security compliance, and performance monitoring.
- Collaborate with IT and infrastructure teams to maintain operational stability.
- Assist with scripting and automation efforts to improve IT efficiency.

IT Support Associate

Research Foundation of CUNY — New York, NY | 09/2022 – 07/2024

- Built a Google Workspace-based reporting workflow that improved resolution time by 50%.
- Configured, deployed, and supported 150+ Windows and macOS devices.
- Delivered hardware, software, and account troubleshooting support to 20+ users weekly.
- Supported Microsoft 365 applications, including Outlook, Teams, and OneDrive.
- Assisted with onboarding, deployment, and support for laptops, desktops, and endpoint devices.
- Created technical documentation and user guides to improve onboarding consistency.

IT Support Specialist Level 2

Unibank S.A. — Port-au-Prince, HT | 01/2013 – 06/2017

- Configured and deployed 1,500+ workstations annually, improving setup efficiency by 40%.
- Resolved 30+ weekly tickets involving hardware, software, connectivity, and access issues.
- Managed Active Directory accounts, permissions, and secure access controls.
- Supported Microsoft Office and Outlook, troubleshooting email access and configuration issues.
- Provided deskside and remote IT support across 50+ branch locations.
- Troubleshot TCP/IP, DHCP, DNS, and IP conflict issues across Windows environments.
- Trained and mentored junior IT support staff to improve operational efficiency.

FOUNDER EXPERIENCE & TECHNICAL PROJECTS

Founder & IT/Web Solutions Developer

GigComp Solutions — Matthews, NC | 01/2025 – Present

- Designed and deployed responsive websites using WordPress, HTML/CSS/JavaScript, Bootstrap, and Tailwind CSS.
- Configured domains, DNS, SSL certificates, hosting environments, and business email systems.
- Implemented support portals, scheduling systems, ticketing workflows, and automated client communication tools.
- Delivered remote IT support, including Microsoft 365 administration, endpoint setup, and troubleshooting.
- Integrated AI-powered workflows using ChatGPT and Gemini APIs to enhance automation and client experience.
